

Great Lakes Breastfeeding Webinars

The Connecticut Department of Public Health and the Connecticut WIC Peer Counseling Program are partnering with the Michigan Breastfeeding Network and its collaborators to present the Great Lakes Breastfeeding Webinars (GLBW). These FREE recorded webinars launch every third Tuesday of the month at 8:00 A.M., EST., and are available on demand.

You can register for several FREE webinars currently available here: <https://mibreastfeeding.org/webinars/> Each provides and 1-hour of continuing education credits for lactation practitioners. If you have any questions, please email hello@mibreastfeeding.org.

Community-Clinical Linkages, Why do CCLs Matter for Breastfeeding?

This 1.5-hour webinar discusses how communities are effectively connecting with birthing facilities and local medical providers to improve continuity of care from the prenatal period until breastfeeding weaning. Participants will learn from local organizations that are effectively partnering with clinical partners to close the critical gap that many families fall through, pre- and post-discharge. 1.5 CERPs will be awarded for completion of the post-webinar evaluation. Access the webinar here: <https://www.youtube.com/watch?v=29p73QxWSBg>

Building a Breastfeeding Support Model for Community Health Centers

This 1.5-hour webinar discusses how to build a breastfeeding support model for community health centers. The webinar can be accessed [here](#). The post-webinar evaluation can be accessed here: <http://bit.ly/CHCPosttest> Once the evaluation had been completed, you will receive a certificate for 1.5 L-CERPs.

Breastfeeding and Community Partnership

This webinar explores the richness and diversity of community-to-community linkages to advance breastfeeding continuity of care. Participants will receive 1.5 CMEs, CNEs, CECHs, CERPs, and 2.0 CPHs and .2 CEUs. Access the webinar here: <https://www.youtube.com/watch?v=x9XKAOUvH5I>

Unpacking Barriers and Facilitators to Exclusively Breastfeeding at Hospital Discharge

This webinar discusses both the results from a qualitative study conducted at a Baby-Friendly hospital aimed to understand factors influencing exclusive breastfeeding at discharge, and the results of an analysis of the common factors for early formula supplementation from mPINC survey data. Participants will receive 1 L-CERP. Access the webinar here: <https://www.youtube.com/watch?v=J0HKAtn-70s> The post-webinar evaluation can be accessed here: <https://bit.ly/excbreastfeedingposttest>

Navigating Lactation Support Programs in the era of COVID-19: the path forward

This webinar explains how two federally qualified health centers and a community-based organization successfully adjusted their lactation plans during the COVID-19 pandemic to continue serving families sustain new activities. Participants will receive 1.5 L-CERPs. You can [access the webinar here](#). The [post-webinar evaluation can be accessed here](#).
